

DECLUSTER

THE FIBER

Xenia garments and devices are made with technologically advanced fabrics and yarns, with the addition of ceramic powders capable of reflecting the far infrared, also called FIR. The far infrared frequencies are biocompatible, i.e. compatible with all living organisms and induce a resonance effect with the water known as the "heat effect", thanks to which microcirculation is optimised.

FLUO PINK
ACID GREEN
BLUE ENERGY

The decluster can be used with both still and sparkling water. Substances and powders, such as supplements and herbal teas, dissolve more quickly and homogeneously. It would be advisable to drink at least one liter of water a day in small sips. To benefit optimally from the effects of the decluster, cover the plastic or glass bottle with the decluster at least 10 minutes before drinking.

COMPOSITION

92% PA, 8% EA.
100% of PA is  byon

TIPS FOR WASHING AND MAINTENANCE FOR BLACK GARMENTS

At low temperatures, both by hand and in the washing machine. It is advisable to: wash in max 40° water; wash separately.
