

WRIST BRACE

THE FIBER

Xenia garments and devices are made with technologically advanced fabrics and yarns, with the addition of ceramic powders capable of reflecting the far infrared, also called fir. The far infrared frequencies are biocompatible, i.e. Compatible with all living organisms and induce a resonance effect with the water known as the "heat effect", thanks to which microcirculation is optimised.

Colour: BLACK

Designed to limit joint movement of the wrist, the cuff helps to quickly restore muscle and ligament function. The tension points, positioned in correspondence of the palm of the hand, offer support to fight the inflammation of the carpal tunnel. The transpiration zones favor correct thermoregulation. In all the aforementioned cases, the use of Xenia garments does not exclude or replace what is medically prescribed.
